WHY DNA TESTING?

Once-In-A-Lifetime DNA Analysis

Your genes do not change, your gene- expression does. Genes can be monitored by knowing your genetic risks for various health conditions. You must know your genes. Go for it.

Not Generic! Personalized Analysis

Our Qualified and experienced Genetic Counselors will carefully decode your 150-page DNA report with eye-opening genetic insights, solving your jigsaw puzzle - much to your delight.

Most Economical Wellness Program

Knowing your genetic traits through Welocity Genetics Comprehensive Advanced DNA Testing Program is truly cost-effective and absolute value for money. Try wellness, not illness.

Non-Invasive. Just Saliva Sample

You simply need to spit 2ml saliva in a DNA saliva sample collection tube. No blood, no syringe, no pain. Kids and elderly love this DNA test. The sample collection process is as easy as that.

Your Customized Gene-based Action Plan

We curate personalized meal plans and customized lifestyle modification for YOU, based on YOUR DNA report & Health Data. Bespoke solutions are no more a luxury. They are essentials.

Enhance Health Span and Longevity

Not just living healthier and happier, when you adopt our scientifically curated gene-based wellness solutions you will be destined to live longer. Look younger. Look radiant.

At Home Test PAN India

You don't need to visit a path lab, clinic or a hospital. This is a 'At-home test.' Simply watch our multilingual saliva sample collection instruction video and do it yourself (DIY).

Experience the Power of Holistic Wellness

Knowing yourself at the genetic level not only gives you realistic health, wellness & fitness goals, but also helps you understand your personality traits helping you find your holistic well-being.

Reduce Medical Expenses

Smart lifestyle choices will inspire you to experience the power of holistic wellness, possibly reducing your medical expenses. Invest in yourself. Take control of your health.

Predict First to Prevent Accurately

Prevention is fruitful only when you know what exactly needs to be prevented. Get scientifically validated DNA predictive analysis that accurately tells you what you need to prevent.

Stay Far Ahead of Others

Staying ahead of times with disruptive Predictive DNA analysis helps you get rid of some of the age-old unscientific conventional wisdom and adopt smart wellness bio hacks.
